## Future Cities

### The Festival of Architecture and Design curates for FUTURE CITIES in Open State

Open State reinforces South Australia as a place open to new ideas, new people, new technologies and fosters innovation and collaboration.

We credit a great deal of the success of last year's inaugural Open State to the diverse group of individuals and organisations who put up their hand to run informative, engaging and thought-provoking workshops, discussions, demonstrations and more.

The Australian Institute of Architects in South Australia has been invited to bring FAD to Open State by curating the Future Cities theme. The Institute is proud to present their Creative Team – TREMMA who will work with you to bring your idea to life! If you are a thought leader or work for a business, government or community organisation who can inspire and engage others in conversations about critical issues affecting the future of South Australia, we want to hear from you.

Hosting a FAD event during Open State is easy, simply fill out the Expression of Interest form below. **Submissions close Wednesday 17 May 2017.**

Do you have an event idea you want to discuss?

Get in touch:

email [gillian.redman-lloyd@architecture.com.au](mailto:gillian.redman-lloyd@architecture.com.au).

We will put you in touch with a member of the TREMMA team to bring your event to Open State.

Let's talk!

# Event Partner

Organisation name\* \_\_\_\_\_

Long description (150 words)\* \_\_\_\_\_

Organisation contact\* \_\_\_\_\_

First name \_\_\_\_\_ Surname \_\_\_\_\_
